

MARDI GRAS M1690081

This is a high gloss black coating with a heavy amount of extra-large, "confetti" like chameleon/color-shift metallic flakes. These large flakes change between green, teal, pink, and purple colors.

NOTE: Flake distribution may vary based on powder gun system and powder delivery system used (hopper, vortex cup, box-feed, etc.). This coating may have a slight texture-like finish due to the extra-large flakes which may protrude through the black finish.

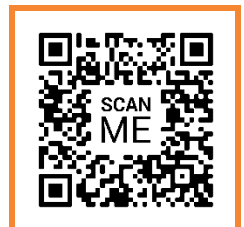

SINGLE-STAGE COATING

FEATURES:

- Single stage coating (UV stable)
- Contains extra-large chameleon/color-shift metallic flakes
- Great for both interior and exterior conditions
- Oil and fuel resistant
- High gloss finish
- Salt Spray: 500 hours pass (ASTM B-117)
- Recommended Bake: 10 Minutes @ 400°F Metal Temperature
