

NON-SKID BLACK X1500064

Hard, texturized, black coating that cures to a slip resistant, rough grit surface. Aids in the reduction of slip and fall accidents.

Not like other powders, as it cures to a slip type coating with no sharp edges to give your parts that professional look. For use in areas where water may accumulate: steps, ladders, railings, and industrial plant equipment. Designed to improve traction on metal surfaces.

FEATURES:

- Superior slip resistant coating
- UV stable (does not require a topcoat)
- Gritty sandpaper-like texture finish
- Great exterior durability
- Matte gloss level (0-5% gloss)
- Salt Spray: 1000 hours pass (ASTM B-117)
- Recommended Bake: 10 Minutes @ 400°F Metal Temperature
